IN THE LAST TEN YEARS

Jim and I have been married for forty-three years, and we both retired about ten years ago. I thought that would simplify my life. No chance!! Jim and I took up duplicate bridge eight years ago, and we now play several times a week. We have achieved the rank of Bronze Life Master after what we estimate is 40,000 hands of bridge. One of the nice aspects of duplicate is that there are games and tournaments all over the country, so we manage to travel to some interesting places and play bridge while we're there. We've also done some international travel, going to England, Spain, Italy, China, Russia and Ireland.

Our older daughter, who works in computing, moved to Texas four years ago, so we only see those grandchildren about once a year. Lots of phone time though. Our younger daughter, who's a police sergeant in San Jose, lives an hour away, so we still get ample opportunity to watch her three children grow.
